ABOUT ME

I graduated from the **Full-Stack Web program** at CodeGym in December 2023. Through real-life projects, this program provided the necessary knowledge and experience for me to be successful in the workplace. I am confident that I have the essential skillset to be a valuable asset to any team.

For me, programming is like building a house, I want to create a quality, safe, and aesthetically pleasing product for my customer. Customers satisfaction is my greatest reward.

TECHNICAL SKILL

Languages

- Java
- JavaScript
- HTML/CSS

Database

- MySQL

Framework/Library

- React Native
- ReactJS/MUI Material
- Spring Boot
- NextJS
- Bootstrap

IDE/Tools

- VS Code
- IntelliJ
- WebStorm
- Postman
- GitHub

OTHER SKILL

Foreign Languages

- English (4 Skills Basic Level)
- Japanese (N5 beginner)

MY GOALS

- My short-term goals are to grow my programming skills, learn new technology development, continue to share/exchange programming knowledge with my team members, and improve my English and Japanese
- My long-term goals are to become a core member of an organization and a collaborative team leader who successfully leads my team to excel in assigned projects.

WORK EXPERIENCE

PROJECT

BugBugBuzz Social Network - *Personal Project*

- Simulated and designed a social networking site similar to Facebook and Twitter. Used Websocket technology to build realtime comments for each post in the news feed.
- Technologies:
Front-end: **ReactJS, MUI Material**
Back-end: **Java Spring Boot, Websocket, MySQL**
Auth: **JWT** for authentication and authorization

during front-end/back-end interactions.

Payment: **PayPal**

- Duration: 14 days

- Link:
